FinishLynx - is the most popular T&F Timing System in the World.

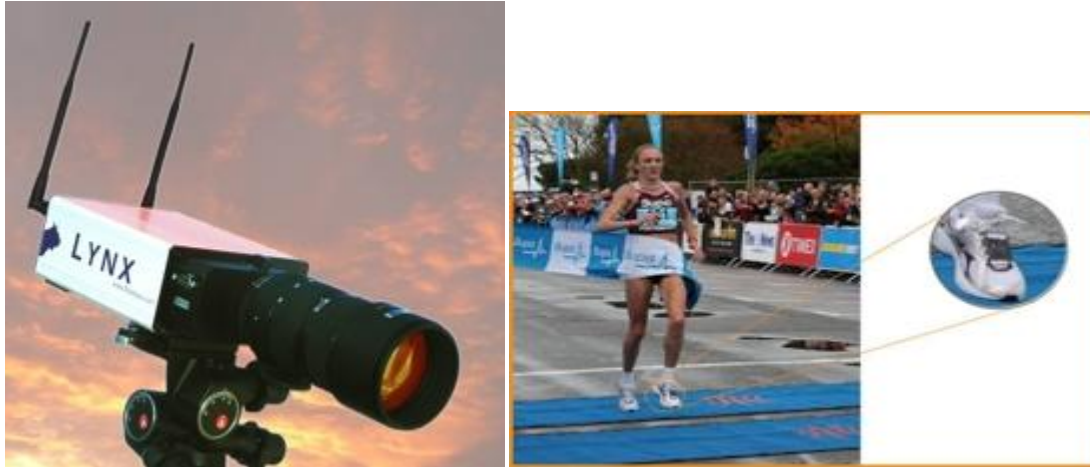

FinishLynx F.A.T. Line Scan Cameras   Ipico Sports Tag System

SERVICES PROVIDED: We can provide all of the computers, printers, and software that is staffed by experienced personnel that know how to operate and run the equipment. We provide instant integration of full automatic timing and meet management software programs using FinishLynx and Hy-Tek, the leaders in the sports timing field.

RFID timing using IPICO Sportag™ and IPICO Dual Frequency Antennas

Integrated with Lynx camera and IdentiLynx camera for verification of identity by hip or bib number and uniform

Three technologies working together for faster and more accurate results

1) Chip Timing for Faster Results
2) FinishLynx Photo Finish System to easily separate close finishes.
3) IdentiLynx full frame camera to replay and review events.
